

ECO-FRIENDLY DYEING ON LINEN FABRIC

P. SASIKALA

Assistant Professor, Department of Costume Design & Fashion, PSG College of Arts & Science, Coimbatore, Tamil Nadu, India

ABSTRACT

Colour is one of the elements of nature that made the human living more aesthetic and fascinating in the world. They are supposed to be associated with emotions, human qualities, seasons, festivals and passion. Colour is an element, which transforms the entire life of fabric. It is the property that is noticed and is frequently the first factor governing fabric choice, says Manisha Gajlot.

KEYWORDS: *Human Living, Human Qualities, Seasons, Festivals and Passion*
