

IN TRANSPORTATION AND TRANSPORTATION LOGISTICS, THE IMPORTANCE OF INFORMATION TECHNOLOGIES

MUSTANOV ODILBEK GANISHEROVICH

Senior Lecturer, Department of General Technical Sciences, Higher Military Aviation School of the Republic of Uzbekistan

ABSTRACT

In this paper, the importance of information technology in ensuring logistics coordination is to coordinate the flow of information that can tailor the goals of supply chain members to apply a common systematic approach to managing the entire flow of information, materials and services. The purpose of information exchange is to balance and stabilize the supply chain.
