### **ABSTRACT**

*Health care and administration is the most recent buzzing term in health care industry. It is confined to the areas of the hospitals, and medical colleges, and pharmaceutical industry which have a close association with Hospitals. The developing Science and Technology, and the growing population along with expanding medical industry it has the essence of its administration. It is an integral part of and it has to expand. It is the sector which comes under service sector. Since India is a developing country there is a need for the expansion of this sector, compared to other nations in the world our country has to expand its services in this sector.*

**KEYWORDS:** *Health, Administration, Sector, Medical, Industry, Growing, Expands & India*
