ABSTRACT

Increasing numbers of institutes have set up facilities on their Web portal as a way of providing users (i.e. Students and Faculties) with information about their facilities and features. Generally in colleges, things are done manually such as submission, handouts, notice, results, records, examinations, etc. so to avoid this we are designing a web portal for our institute, which will be helpful in following features like time saving, easy access and user friendly, etc. E-Click Portal aims to design a web portal for institutes where all the facilities will be provided online for various things like E-Submission, E-Alerts, E-Learning, E-Examination, E-Records, E-Result, etc. This portal provides useful facilities for students and faculties who wish to access the portal at desk or one click sitting anywhere.

KEYWORDS: Web Portal, Web Application, Web Service, Academic Portal
